Pager Duty - Re: PO Adrian Schockcraft10/31/09 - T/C Sick Duty, Sgt Kloos

MOS was at work today. He skinned a sick report on the Sgt's desk & said he was going out sick. Sgt told him to stick around & he refused & left. Didn't follow procedure. Typically, they call sick desk & unit, cannot to arrange coverage. MOS was working on T.S.

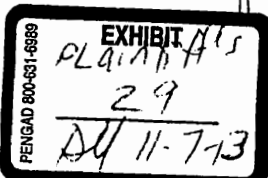

MOS did not go straight home. Cops are at his home waiting for his arrival. They called MOS on his cell phone. They think he picked up & then hung up. Since then, no answer. They are thinking of arresting him but they suspect it is more of a psych problem. XO of MOS' command (81st) is Capt Lauterborn & request response per LES. — C. J. [unclear]

T/C Capt Lauterborn

MOS doing a 7-3 day tour today, at TS all day. All was fine. He typically keeps to self & doesn't converse much with other than, odd some today. Nothing seemed out of ordinary.

2111 - he went down to locker room, changed & then put a sick report on Sgt's desk & said going sick. He wrote that he had stomach pains. Sgt tried to stop him but he left anyway.

Underlying issues - MOS has made allegations against others. Dept's investigation of these allegations picked up this week & it snowballed from there. This week, about 4 PO's & 2 civilian people were called down for questioning. MOS goes up to them & asks about it, notifications are in telephone message log so he knows who is going. When they return, he tries to intercept them & get info from them about what he was asked. Today was 1st tour back after RDO's. Not sure what happened today that triggered him to leave like that.

Delety, Perry, Sgt & Capt L. all left
him message & asked him to go back to command.

A Lt is at his home. His car is there.
Landlord said MOS may have been there earlier. Commonly
seen MOS' potatoes there home. MOS not ~~there~~ here.

- I left a msg on MOS' cell phone. I gave my
cell # & Capt L's cell phone. I told him that Capt
said he could just return to his home if he didn't want to
go to the command, I urged him to go home. Call L Capt
so this could be resolved quickly & easily w/o need
for a subpoena or bill of rights to search for him, or displaying
acts like kidnapping. Much easier to just locate it
quickly & easily now. I explained that everyone is just
concerned for his safety & they want to make sure he is ok.

- I/c Capt Lauterborn - I informed Capt that I left
msg on MOS' cell phone as described above. I suggested Capt
call MOS' father b/c that's the person he is closest to & the
person who is most likely to know his whereabouts. Capt will
call w/5 when he can or hear from MOS.

I/c Capt Lauterborn

Still no word from MOS. Capt called MOS' father,
who also hadn't heard from him. Father "had some issues"
over phone but eventually understood Capt's point of view &
concerns. Hoping Father will call MOS & encourage him to go home.
Capt will go to MOS' home. It's possible he's home but not
knowing phone (Landlord has spare key?) yes & Capt has it. But
legal issues & why it's there to have cause. Hoping to avoid going
that route.

2140 -

I/c Sgt Klay, sick desk. off duty since not known when
MOS might be located.

Re: Po Adrian Schoelkopf

addendum to 10/31/09 note of TKE & Capt Lauterbach at approx
1750 hours. Delayed entry made on 10/14/10, when reviewing
files, the below info was found to not be documented in prior notes, but
is clear in US' memory. Capt Lauterbach asked if MOS was
suicidal or depressed, because he needed to know how concerned they
should be about MOS' safety given his young family, not answering phone
calls, not answering door of home but kitchen was there, etc. I informed
Capt that I last saw MOS at PES on 10/27/09 & at that time
he looked ok & reported being asymptomatic. At no time had he
ever expressed thoughts of suicide, but he also never was alone before
& after the way he was acting on 10/31/09. My assessment of his
suicide risk is only as good as the last time I saw him. My security
happened after that & led him to be so upset that he left work
without permission on home before the end of his tour, said he had
stomach pains, etc. Then I am unable to say with any reasonable
amount of certainty that he is not at risk of self-harm or present
circumstances. I provided Capt with basic info about reason
MOS was on R/D - that he had significant physical symptoms
(Normalizing GI Sx, Cardiac Sx, etc). Whether if MOS was
reporting symptoms on 10/27/09 when he said all of his Sx went away
w/o Tx, Motivation to minimize is that he did not want to be on P/R/D,
he was often denying initial onset but denied any sort of Sx in subsequent
medical settings, when also expressed being upset about being on P/R/D. His report
on 10/31/09 that he had stomach pains severe enough to prevent being work before
end of tour, w/o previous symptoms either the Sx never did go away or
they recurred on 10/31/09 due to his being really upset about security.
It is also possible there was a medical cause for the stomach pains
but the angry manner in which he left work suggests a possible cause.

10/27/09 - E1F2M05

d. explained to M05 that I called him in immediately after my return from a 2 wk vacation b/c of receiving that he

that. made a comment during that of how he'd M05 the reason

why he is on R/P. There we had discussed that in detail at his

initial a subsequent visits, of especially around on continuity of

how he may not have wanted to tell his wife the reason why he

was on R/P. I made sure that he has a clear understanding of

why he is on R/P, of course explained in detail that he is on R/P

b/c he had significant physical manifestation of stress that

was causing him distress & would benefit from treatment &

private therapy.

M05 said he no longer has those physical symptoms

even though he is still facing the same situation on a daily

basis on R/P. He is at least clear of PCT daily work

complete on a daily basis - not aware of his, but not coming

for treatment (in his opinion) as regular. F10 records

of other treatment should not be relevant training so the

next time he is faced with new medical situation, he won't

have a recurrence of the chest pain, feeling morning

support stomach, etc, that he had a dental work when he left

came to PDS. He said he bought both books of treatment

of the reading from, but not the laptop since not make

didn't know better. He thought the Davis book was finally

coming & prepared the book. He said the book was

books to feeling's copy or had book work in the day

for more than (50 hour) read much of them, he said he

could - the people of treatment but not the extra &

one with the book. I told him I will help him find one

After that, I said since the most common (b/c of physical stress of

he said he would call back & he provided it to me of his

about the book so of course and give the provider or

in-person, I was prepared on approach of the situation

in person, I was

10/27/09 - Mos called with his health insurance exp.

10/27/09 - T/C C Mos

advised Mos that I found a number of psychologists in
Forest Hills (his preferred location) who accept Aetna HMO &
spec. care in CBT, AHC, & Stress Mgt. He does not
have a private for a series of offers to mail it to
him. I also gave him the Aetna behavioral health care
website for further info as well as Educ. & self-
management tools.

2235 - T/C - Capt Lauterborn

Made entry using key b/c landlord heard footsteps. He said he was sleeping whole time but not possible with the amount of banging & yelling they were doing outside before going in with the key to make sure he was OK. It was a bad scene.

He admitted that Sgt called him back & denied him the sick leave, but that he left the command anyway. Capt explained that they were concerned he was sick & why did he leave in such a hurry that way.

MOS sd "why would anyone be concerned about me before?" He refused to go to command & kept saying he didn't feel well. ^{Capt} Called ambulance. EMTs took his vitals.

BP very high. 170/120.

EMT wanted him to go to hosp. b/c BP so high. MOS opt'd then MOS agreed but then refused. He ran back inside & had to be stripped down & forcibly taken to Triad Hosp. (1) MOS ~~sd~~ said he wanted to sleep at home & was go to ER on own the next day, but EMT couldn't allow that b/c BP so high. Chief Merino was there & suspended him.

MOS was very disrespectful in every way. Chief gave him so much room but MOS out of control & total disregard for supervisors.

Whole time talking to police on cell phone. Could hear police yelling. (at MOS or to him about situation?) Not at MOS. Father angry about MOS's handling of this & other situation & MOS. Father doesn't have accurate info, in fact lies about it.
